Bill Strachan  
Collex Collision Experts  
322 Rutherford Rd. S.  
Brampton, ON L6W 3K7

Dear Bill,

I received a notice in my office yesterday stating that Collex Collision Experts had taken the plunge and converted over to a low VOC Aqua Base Plus paint system in your Repair and Refinishing shop. I think it's absolutely fantastic that your company made this move, years ahead of industry and Environment Canada's proposed regulations.

By switching over to a water-based paint and improving your practices to further reduce airborne pollution, you are showing wonderful corporate responsibility regarding the long-term health of your staff, as well as Collex's impact on the environment.

As well, I would like to offer my congratulations to Collex Collision Experts on the celebration of their 30<sup>th</sup> anniversary. Collex is an example of the fine businesses that can be found in Brampton, and I hope that you will enjoy success for many more years to come.

Sincerely,

Elaine Moore
